

## **Lesley Brodbeck**

I have been involved with the sport of eventing for over forty years. I have seen many changes and competed at most of the major events in Australia and many events in England.

I've produced many horses through to the top levels, and have a good understanding of the sport from various perspectives.

As a young rider, I won several of the major three day events in Australia and was selected to ride at the World Championships in 1986.

I am currently campaigning two 2\* horses (amongst others) with a view to continue competing and achieving personal goals.

As a rider, I've had the opportunity to train with many of our top trainers, both here and internationally and have developed my skill set through many years of training, learning and competing.

I have worked closely with many of Queensland's riders and have been employed by Stuartholme School for the past ten years as their head jumping coach. We have enjoyed much success within the Interschool movement.

Some of my equestrian pursuits have involved managing studs, agistment centres, riding track work, flying horses internationally, working with RDA, showhorses, vaulting horses, vet-nursing and strapping for royalty!

I have forty years experience, as a coach of all the disciplines. I currently manage an agistment centre in Moggill.

I would like to contribute to the sport any way I can.
