

## **Mary MacMillan**

With a continued involvement of over 40 years, as a Steward, Judge and Ringmaster at a large variety of equine events across Australia, I would expect the experience I have gained would be beneficial to any equestrian organisation.

Preceding this time, I competed extensively through my local PCAV club with a keen interest in jumping, before continuing to ride as an adult, both in Victoria, and later once I moved to Queensland.

My move to Queensland was to join the MacMillan family where I rapidly gained a vast amount of knowledge and experience from their extensive high level competition activities across both the show ring, dressage, and stockhorse events at numerous Royals, Ag Shows and EA Events.

In later years, with my family gravitating away from horse events, I have retained my involvement in an official capacity, as an Honorary Council Steward at Brisbane Royal and as Ringmaster at my hometown Ag Show in Victoria while also judging and stewarding at numerous events in between, including stewarding at Canberra Royal.

I also continue to involve myself with the Australian Power Boat Association, where I have held executive committee positions at both club, state and national levels for over 20 years (receiving Honorary Life Membership for exemplary dedicated service), while also competing, managing teams and organising events at all levels of the sport.

Consequently, I expect my experience and knowledge will be put into good use through any association with Equestrian Queensland.
