SPORT & SQUAD SELECTION & SELECTORS POLICY

Policy Area: Governance

Policy Number: EQ 0014

Effective Date: 1 January 2015
(First adopted 29 January 2008)
(Revised 7 February, 2011)
(Revised and adopted 10 December 2014)
(Revised and adopted 28 September 2017)

PART A SELECTION CRITERIA

1.Objectives

- 1.1 To identify those athletes who, in the opinion of the respective Sports Selection Committees, are most likely to achieve the best possible results in their chosen sport, for inclusion on the various State Training Squads.
- 1.2 To select the most qualified and suitable person/s to serve as Chef d'Equip/Team Manager for Equestrian Queensland's various sport's squad/s and teams.
- 1.3 To select the most qualified and suitable persons to serve as Selectors on the various sports Selection Committees.

2. Selection Criteria

- 2.1 The Sports Committee (SC) and Squad Selection Panel (SP) shall for each equestrian sport, in consultation with each other, prepare specific criteria for Squad selection for that sport keeping in mind the general selection criteria as outlined in this policy. Where an agreement cannot be reached between the SC and the SP, consultation can be sought with the EQ Board who will consider submissions of both parties and make the final determination.
- 2.2 Once determined, the selection criteria must be clearly set out and advertised to all EQ members a minimum of 3 months prior to the implementation of the rule.
- 2.3 In determining the proposed selection criteria Sport Committees should consider the following points:
 - Selection is for specific horse & rider combinations;
 - Results from a minimum number of competitions (minimum of 3 results for example)
 - Results from a minimum level of competition (e.g. Dressage 2* events, World Cups & Royal Shows for showjumping, Eventing CNC2*) These should be specified by the respective SC
 - Athletes & owners must be current financial members of EA/EQ
 - Horses must be registered with EA/EQ
 - Athletes must conform to the EA Code of Conduct & Welfare of the Horse
 - Athletes must be Australian citizens or permanent residents
 - Athletes must be eligible to compete for Queensland & Australia
 - Athletes must have a minimum of one result from an EQ designated Competition to be eligible to be included on an EQ squad
 - Athletes & horses must be sound & fit & able to compete at the beginning of the squad year
 - Athletes must sign the squad agreement form
 - Owners, if not squad selected rider, must sign the Horse Owners Agreement
 - Horses & ponies are eligible for selection
 - All disciplines should appoint a High Performance Manager/Squad Director as a first point of contact in relation to squad matters.
- 2.4 These general criteria should be set for each discipline's squads. Additional criteria can be included if necessary. To be eligible for squad selection combinations must fulfil the general criteria however this does not guarantee the combination a squad position. Where there are more eligible combinations than available squad positions the Selectors base their final

decision on results obtained, but may also, at their discretion, apply additional criteria, provided they have been advertised to all athletes as part of the overall selection process.

- 2.5 Holding lists for injured horses and/or athletes & reviewing of the squad at 6 monthly intervals (or as determined by the respective SC) can all be included in each disciplines criteria, as they see fit.
- 2.6 No wild card inclusions should be allowed as this is not transparent & defeats the purpose of squad selection being based on performance related criteria.
- 2.7 The number of squads & the number of horse/rider combinations per squad should be set by each SC, keeping in mind that the squads should be designed to be the goal of athletes in each discipline. Also keeping in mind the number of squads & numbers on each squad should be in accordance with 2.8 below. Combinations selected onto squads should be the best performing combinations in the State. Squad positions should be sought after & carry with it an appropriate level of prestige.
- 2.8 With 2.7 above in mind, there should be an Elite level squad, a Development level squad & a Young Rider Squad. Names for the different squads can be decided on by the respective SC to reflect their discipline. It is suggested that the number of combinations for each squad should be Elite level squads 8, Development level 10 & Young Rider 12. Young Rider numbers can be further broken down to suit different ages of young riders competing. Numbers of squad members shouldn't be so high as to reduce the prestige of belonging to a Qld squad.
- 2.9 Squad members should be entitled to some privileges within their sport but they should also realise that being a member of a Qld squad carries some responsibilities with it. They should assume responsibility for being ambassadors for their discipline & for EQ generally & act as role models for the newcomers & young participants in equestrian sports. They should be provided with a squad uniform & when representing Qld at competitions should wear some form of Qld recognition (e.g. saddle patch, jacket patch). These should be provided by the appropriate SC & depending on the financial situation can either be free of charge or for a minimal cost. Squad selection is an important thing & should be seen to be an achievement for horse & rider combinations.
- 2.10 Any amendment to any sport specific criteria that this Policy applies to, must first be approved by the EQ Board and published immediately to all Members.
- 2.11 In relation to Teams Selection the Selectors need to take into account criteria for both teams who compete on borrowed horses and teams who compete on their own horses.
 - The selection criteria for teams who compete on borrowed horses should involve performances of a minimum level (%/placing) on a number of horses – 2 at a minimum. This is to show the ability of the rider to ride and do well on a variety of horses not just 1.
 - The selection criteria for teams who compete on their own horses, should involve performances of a minimum level (%/placing) at high profile events where there is more pressure on the combination. Not all combinations perform well at big events where they are under more pressure

Team Selection may include combinations not on current Queensland Squads

3. Selection Conditions

3.1 Selection of an athlete into a State Squad set out in the State Squad Criteria is conditional upon the athlete and owner:
