

**NAME: Sasha Ulasowski**

I bring extensive experience in equestrian sport, sport governance, and organisational leadership, developed over more than 20 years working across State and National Sporting Organisations. I am an Equestrian Australia Level 2 General Coach and accredited Coach Educator, providing a strong practical understanding of coaching pathways, athlete development, and the realities of delivering equestrian sport at all levels.

My professional background includes 13 years with Equestrian Queensland as a Sport Development Officer, supporting affiliates, coaches, officials, and athletes across multiple disciplines. In this role, I contributed to participation growth strategies, junior development initiatives, coach education, and stakeholder engagement at both grassroots and performance levels. I later held the role of General Manager – Sport Operations with Equestrian Australia, with national responsibility for sport delivery, policy implementation, governance processes, and collaboration with State Sporting Organisations. This role required strong strategic oversight, risk management, and a thorough understanding of national sport systems, compliance obligations, and constitutional alignment.

In addition to my equestrian-specific experience, I have held senior roles across broader sport and recreation portfolios within State and National Sporting Organisations. I bring demonstrated expertise in sport management, governance, funding and grant administration, policy development, and partnership building. I currently work for a State Sporting Organisation representing people with disability, reinforcing my commitment to inclusive sport, accessible pathways, and equitable participation, underpinned by strong governance and ethical decision-making.

I am deeply passionate about equestrian sport, particularly the development of junior riders and the creation of clear, sustainable pathways for riders of all levels. My combined experience as a coach, sport administrator, and senior executive enables me to contribute strategic insight, informed governance judgement, and practical understanding to the Equestrian Queensland Board.

Serving on the Board represents an opportunity to give back to the sport that has shaped my career, while supporting its long-term sustainability, integrity, and growth
